

abrdn SICAV I - China Next Generation Fund

A Acc HKD

31 December 2024

Important Information

- The Fund invests primarily in small and mid-capitalisation equities and equity-related securities of: 1) companies listed, incorporated or domiciled in China; or 2) companies that derive a significant proportion of their revenues or profits from Chinese operations or have a significant proportion of their assets in China.
- The Fund is therefore exposed to risks related to equity, concentration, investing in smaller companies, investing in emerging markets (including China), exchange rates, RMB currency and conversion, Shanghai-Hong Kong and Shenzhen-Hong Kong Stock Connect programme, investment made through QFI regime, ChiNext, Variable Interest Entity structures, securities lending agreements and PRC tax.
- The Fund's net derivative exposure may be up to 50% of the Fund's net asset value and subject to counterparty/credit risk, liquidity risk, valuation risk, volatility risk and over-the-counter transaction risk.
- Investment in this Fund may involve a high degree of risk and may not be suitable for all investors. It is possible that the entire value of the investment could be lost.
- Investors should not invest in this Fund based solely on this document and should read the relevant offering documents for further details including the risk factors.

Objective

The Fund aims to achieve a combination of growth and income by investing in small and mid-capitalisation companies in China.
The Fund aims to outperform the MSCI China All Shares Smid Cap Index (USD) benchmark before charges.

To help you understand this fund and for a full explanation of risks and the overall risk profile of this fund and the share classes within it, please refer to the Product Key Facts Statement and Prospectus which are available on our website www.abrdn.com/hk. The Prospectus also contains a glossary of key terms used in this document.

¹These are the maximum charges that we might take out of your money before it is invested. In some cases, the charges may be less and you should speak to your financial advisor about this.

²The Ongoing Charge Figure (OCF) is the overall cost shown as a percentage of the value of the assets of the fund. It is made up of the Annual Management Charge (AMC) of 1.75% and other charges. It does not include any initial charges or the cost of buying and selling stocks for the fund. The Ongoing Charges figure can help you compare the annual operating expenses of different funds. There are other applicable costs. The other operating charges figure (OOC) is the total expenses paid by each share class, against its average net asset value. This includes the annual management charge, the other operating expenses and any synthetic element to incorporate the ongoing charges of any underlying qualifying investments. The OOC can fluctuate as underlying costs change. Where underlying costs have changed, the OOC disclosed in the Fund offering Documents will be updated to reflect current changes.
