

abrdrn SICAV I - Climate Transition Bond Fund

A Acc USD

31 May 2025

Important Information

- The Fund's investment objective is long term total return to be achieved by investing at least 90% of its assets in Investment Grade and Sub-Investment Grade debt and debt-related securities issued worldwide, including in Emerging Markets, that support the transition to a low carbon economy and society's adaptation to climate change.
- The Fund is therefore exposed to risks related to debt securities, investing in Sub-Investment Grade debt securities, investing in emerging markets, ESG investment policy, volatility strategy, exchange rates and securities lending transactions.
- The Fund's net derivative exposure may be up to 50% of the Fund's net asset value and subject to counterparty/credit risk, liquidity risk, valuation risk, volatility risk and over-the-counter transaction risk.
- The Fund may at its discretion pay dividends out of the capital of the Fund. Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any distributions involving payment of dividends out of the Fund's capital or payment of dividends effectively out of the Fund's capital (as the case may be) may result in an immediate reduction of the net asset value per share.
- Investment in this fund may involve a high degree of risk and may not be suitable for all investors. It is possible that the entire value of the Investment could be lost.
- Investors should not invest in this Fund based solely on this document and should read the relevant offering documents for further details including risk factors.

Objective

The Fund aims to achieve a combination of income and growth by investing at least 90% in bonds (loans to governments and companies) issued worldwide, including in Emerging Market countries, which follow the Investment Manager's "Climate Transition Bond Investment Approach" (the "Investment Approach").

All bonds in the view of the Investment Manager, support the transition to a low carbon economy and society's adaptation to climate change.

To help you understand this fund and for a full explanation of risks and the overall risk profile of this fund and the share classes within it, please refer to the Product Key Facts Statement and Prospectus which are available on our website <https://www.aberdeeninvestments.com/en-hk>. The Prospectus also contains a glossary of key terms used in this document.

¹Yield to Maturity as at 31/05/2025 is the yield that would be realised on a bond or other debt instrument if the security was held until the maturity date.

²These are the maximum charges that we might take out of your money before it is invested. In some cases, the charges may be less and you should speak to your financial advisor about this.

³The Ongoing Charge Figure (OCF) is the overall cost shown as a percentage of the value of the assets of the fund. It is made up of the Annual Management Charge (AMC) of 0.80% and other charges. It does not include any initial charges or the cost of buying and selling stocks for the fund. The Ongoing Charges figure can help you compare the annual operating expenses of different funds. There are other applicable costs. The other operating charges figure (OOC) is the total expenses paid by each share class, against its average net asset value. This includes the annual management charge, the other operating expenses and any synthetic element to incorporate the ongoing charges of any underlying qualifying investments. The OOC can fluctuate as underlying costs change. Where underlying costs have changed, the OOC disclosed in the Fund offering Documents will be updated to reflect current changes.
