abrdn SICAV I - Future Minerals Fund

This is a marketing communication. Please refer to the Prospectus of the UCITS/Information document and the Key Investor Information Document (KIID) or Key Information Document (KID) as applicable before making any final investment decisions. Fund changed it's name from 15th May 2024 from World Resources Equity Fund to Future Minerals Fund.

S Acc Hedged EUR

aberdeen Investments

31 October 2026

Objective

The Fund aims to achieve a combination of growth and income by investing in companies of all sizes listed on global stock exchanges including Emerging Markets, which adhere to the Fund's ESG criteria.

Portfolio securities

- The Fund invests at least 70% in equities and equity related securities of companies listed globally.
- The Fund may invest up to 20% of its net assets in Mainland China equity and equity-related securities through the Shanghai-Hong Kong and Shenzhen-Hong Kong Stock Connect programme.
- Investment in all equity and equity related securities will adhere to the Fund's ESG criteria detailed in the Fund's "Sustainability related disclosures", which is published at www.aberdeeninvestments.com under "Fund Centre".
- The approach identifies companies which are aligned to the Future Minerals theme defined as the extraction and processing of raw materials which clean energy transition technologies are reliant upon; and the initial and post-use process technologies that enable this transition.
- Aberdeen Investments' Overall Sustainability Assessment (OSA) provides an overall view on a company's sustainability based on scoring of its governance, operations, and products and/or services. To complement this the Investment Manager's equity investment process is utilised, which enables portfolio managers to qualitatively identify ESG risks and opportunities. Companies considered to be exposed to the highest ESG risks will be excluded. Additionally, a set of company exclusions are applied which are related to the UN Global Compact, Controversial Weapons, Tobacco Manufacturing and Thermal Coal.
- Financial derivative instruments, money-market instruments and cash may not adhere to the Fund's ESG criteria.

Performance Data: Share Class S Acc Hedged EUR
Benchmark History: Benchmark - MSCI AC World, NAV Hedged to EUR from 16/05/2024. S&P Global Natural Resources Index, NAV Hedged to EUR from 29/10/2010 to 15/05/2024.
Source:Factset, BPSS, Datastream. Basis: Total Return, NAV to NAV, net of annual charges, gross Income reinvested, (EUR).
Costs may increase or decrease as a result of currency and exchange rate fluctuations. This may impact what you might get back.
"Fund (Net)" refers to the actual unit price performance of the shareclass shown; "Fund(Gross)" adds back charges such as the annual management charge to present performance on the same basis as the performance target / performance comparator / portfolio constraining benchmark. All return data includes investment management fees, operational charges and expenses, and assumes the reinvestment of all distributions. The returns provided do not reflect the initial sales charge and, if included, the performance shown would be lower.
This Base Currency Exposure shareclass does not have a benchmark with the equivalent level of currency hedging to the shareclass. Please see the factsheet of the primary shareclass for the performance relative to benchmark.
On 16/05/2024 the fund's objectives, name and/or investment policy changed. The performance prior to this date was achieved under circumstances that no longer apply. Past performance does not predict future returns.

Management process

- The Fund is actively managed.
- Future Minerals theme alignment is defined as companies with a minimum of 20% of their current or forecast revenue, profit, assets, capital expenditure linked to one of the following pillars:
- Mineral extraction & processing: metals and mining companies with raw mineral exposure that clean energy technologies are reliant upon
- Upstream & downstream value chain: machinery and services that enable the clean energy transition and mineral conversion into clean energy products (e.g. electric vehicle battery makers)
- Recycling & sustainability: minerals and metals extraction from waste for re-use
- Compounds & advanced materials: other material producing companies that support the clean energy transition.
- Through the application of the Fund's ESG criteria, the Fund has an expected minimum of 20% in Sustainable Investments.
- Engagement with external company management teams is used to evaluate the ownership structures, governance and management quality of those companies in order to inform portfolio construction. As part of this, where a company fails the thermal coal exclusion but is identified as having a clear and credible action plan to mitigate the adverse impact associated with these activities, the company will be deemed investable. This is to support their transition to ultimately comply with the thermal coal exclusions. Up to 5% of assets may be invested in such companies.
- No benchmark is used for portfolio construction or as a basis for setting risk constraints in the management of the Fund. The Fund references the MSCI ACWI Index (USD) for use as an indicative comparator of the long-term performance of the Future Minerals theme against global equities.

Risk and reward profile

1	2	3	4	5	**6**	7

Lower risk
Typically lower rewards

Higher risk
Typically higher rewards

This indicator reflects the volatility of the fund's share price over the last five years. See the relevant UCITS Key Investor Information Document (KIID) Document for details.

Key risks

a. The value of investments and the income from them can fall and investors may get back less than the amount invested.
b. The fund invests in equity and equity related securities. These are sensitive to variations in the stock markets which can be volatile and change substantially in short periods of time.
c. A concentrated portfolio may be more volatile and less liquid than a more broadly diversified one. The fund's investments are concentrated in a particular country or sector, or closely related group of industries or sectors.
d. The fund invests in emerging market equities and / or bonds. Investing in emerging markets involves a greater risk of loss than investing in more developed markets due to, among other factors, greater political, tax, economic, foreign exchange, liquidity and regulatory risks.
e. The fund may invest in companies with Variable Interest Entity (VIE) structures in order to gain exposure to industries with foreign ownership restrictions. There is a risk that investments in these structures may be adversely affected by changes in the legal and regulatory framework.
f. Investing in China A shares involves special considerations and risks, including greater price volatility, a less developed regulatory and legal framework, exchange rate risk/ controls, settlement, tax, quota, liquidity and regulatory risks.
g. Applying ESG and sustainability criteria in the investment process may result in the exclusion of securities within the fund's benchmark or universe of potential investments. The interpretation of ESG and sustainability criteria is subjective meaning that the fund may invest in companies which similar funds do not (and thus perform differently) and which do not align with the personal views of any individual investor.
h. The use of derivatives carries the risk of reduced liquidity, substantial loss and increased volatility in adverse market conditions, such as a failure amongst market participants. The use of derivatives may result in the fund being leveraged (where market exposure and thus the potential for loss by the fund exceeds the amount it has invested) and in these market conditions the effect of leverage will be to magnify losses.

Derivative usage

- The Fund may utilise financial derivative instruments for hedging and/or investment purposes, or to manage foreign exchange risks. The use of derivatives for hedging and/or investment purposes is expected to be very limited, mainly in those cases where there are significant inflows into the Fund so that cash can be invested while the Fund's investments in equity and equity related securities is maintained.

A summary of investor rights can be found in English on our website - https://www.aberdeenplc.com/legal. Any decision to invest should take into account all objectives of the fund. To help you understand this fund and for a full explanation of risks and the overall risk profile of this fund and the shareclasses within it, please refer to the Key Investor Document available in the local language, and Prospectus available in English, which are available on our website www.aberdeeninvestments.com. The Prospectus also contains a glossary of key terms used in this document. The Fund Management company may terminate arrangements for marketing the fund under the Cross-border Distribution Directive denotification process.
This Fund concerns the acquisition of units or shares in a fund, and not in a given underlying asset such as a building or shares of a company.
[1] These are the maximum charges that we might take out of your money before it is invested. In some cases, the charges may be less and you should speak to your financial advisor about this.
[2] The Ongoing Charge Figure (OCF) is the overall cost shown as a percentage of the value of the assets of the fund. It is made up of the Annual Management Charge (AMC) of 1.92% and other charges. It does not include any initial charges or the cost of buying and selling stocks for the fund. The Ongoing Charges figure can help you compare the annual operating expenses of different funds. There are other applicable costs. The other operating charges figure (OOC) is the total expenses paid by each share class, against its average net asset value. This includes the annual management charge, the other operating expenses, and any synthetic element to incorporate the ongoing charges of any underlying qualifying investments. The OOC can fluctuate as underlying costs change. Where underlying costs have changed, the OOC disclosed in the Fund offering Documents will be updated to reflect current changes.

The fund is a Luxembourg-domiciled UCITS fund, incorporated as a Société Anonyme and organised as a Société d'Investissement á Capital Variable (a "SICAV").
The fund has been authorised for public sale in certain jurisdictions and private placement exemptions may be available in others. It is not intended for distribution or use by any person or entity that is a citizen or resident of or located in any jurisdiction where such distribution, publication or use would be prohibited.
The fund is not registered under the United States Securities Act of 1933, nor the United States Investment Company Act of 1940 and therefore may not directly or indirectly be offered or sold in the United States of America or any of its states, territories, possessions, or other areas subject to its jurisdiction or to or for the benefit of a United States Person. For the definition of United States Person, see the current prospectus.

Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. Past performance is no guarantee of future results. For more detailed information about Morningstar's Analyst Rating, including its methodology, please go to: http://corporate.morningstar.com/us/documents/MethodologyDocuments/AnalystRatingforFundsMethodology.pdf
The Morningstar RatingTM for funds, or "star rating", is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The Morningstar Rating does not include any adjustment for sales loads. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period. Past performance of a security may or may not be sustained in future and is no indication of future performance. For detailed information about the Morningstar Analyst Rating for Funds, please visit http://global.morningstar.com/managerdisclosures
